#### HEALTH OFFICIALS TO IMPROVE CITY'S SANITATION.

August 5, 1905.

To the Citizens of Frankfort:

Whereas the open door policy toward the South inaugurated by the State Board of Health of Kentucky has made it necessary that the greatest precautions for the protection and preservation of health be taken, it is the desire of this Board that the citizens of Frankfort and vicinity give us their hearty co-operation in our efforts to bring about the most perfect sanitary condition possible in this city. Therefore, the citizens are requested and directed to take immediate steps to remove all nuisances and sources of disease, cut all weeds from their premises, disinfect outhouses, drain or empty all places that may become breeding grounds for disease germs and lend every assistance possible to preserve the highest state of sanitary welfare in our city, thereby inducing such greatly needed health reforms as will not only prevent yellow fever from appearing among us, but will lessen typhoid, diphtheria and other diseases that are prevalent at this season of the year, and which are the cause of such a large and needless death rate every year.

The city ordinance against throwing rubbish, refuse, trash, etc., about the streets and in alleyways will be rigidly enforced. This is a most fruitful source of deadly disease germs and should be guarded against with all vigilance.

A special policeman has been assigned by the Mayor to assist the Health Officer in making a house to house inspection, and his orders as to sanitation must be followed to the letter under penalty of prosecution. By order of the City Board of Health of Frankfort, Ky.

C. A. FISH,  
G. F. THOMPSON,  
LAMPTON PRICE,  
Committee.

### CAPT. GERVIAS H. STONE DEAL.

After long years of suffering from the effects of wounds received in battle, while serving in the Southern army, Capt. Gervias H. Stone, of Louisville, passed away on Thursday. Capt. Stone was formerly clerk at the local penitentiary.

He was a brave, gentle and kindly man.

He leaves two daughters (Mrs. Ed. George, of this city, and Mrs. Ira DeHaven, of Louisville), and three sons (Messrs. Edward, Robert, and Gervias, Jr., of Louisville), to mourn his death.

His passing away was a blessed relief from suffering.

The remains were brought here yesterday and buried in our cemetery.

### SPLENDID RAINS.

On Sunday, Monday and Tuesday, of this week, we were blessed with gentle, "soaking in" rains, which caused the farmers to smile again and the common people to bless the "Giver of all Good."

### RETURN FROM VACATION.

Rev. Wm. Crowe, pastor of the Southern Presbyterian Church, returned Thursday from Winona Lake, Ind., where he has been spending his vacation. He will fill his pulpit to-morrow.

Rev. M. B. Adams, D. D., pastor of the First Baptist Church of this city, has returned from his month's vacation, spent in Fleming and Mason counties. He will fill his pulpit to-morrow.

### YELLOW FEVER SITUATION.

The whole country is looking, with unabated anxiety, at the situation in New Orleans, La., with regard to the yellow fever. The total number of cases has reached about 700 or over, with a total death rate of about 120. While the death rate is low, yet the outlook is not favorable.

The disease, at first, was confined to the French section of the city, below Canal street, but it has steadily worked its way into the better quarters.

Archbishop Chappelle is one of the most distinguished of the victims.

The Federal government has taken charge of affairs, and, strange to say, has found that quite a number of physicians, notwithstanding the stringent laws on the subject, have concealed the fact that they had yellow fever patients, thus helping to spread the disease. This accounts for the apparently large number of new patients developed.

With the energetic measures the government is enforcing it is hoped to stay the ravages of the dread destroyer, as was done at Havana and Santiago, Cuba.

FRANKFORT, AUGUST 12, 1905

NEW YORK COMPANY  
AWARDED CON-  
TRACT.

The Board of Capitol Commissioners, after two days consideration of the large number of bids for the construction of the new Capitol, awarded the contract to the General Supply and Construction Co., of New York, at the price of \$880,000, the work to be completed in two years.

The bids ran all the way from the contract price, as above, to \$1,441,000, distributed among some twenty-five bidders.

Bids for portions of the work were not considered.

Bedford, Ind., stone is the material to be used, the Kentucky stone being found more expensive than it is.

Of course, now there will be a number of subcontractors, under the principal, but the State will have no dealing with them directly.

### ITEMS OF IMPROVEMENTS.

Mr. Frank D. Clark has awarded the contract for his new house. Mr. W. L. Graham was the successful bidder.

Mr. Eugene Wallace is building a brick cottage on his North St. Clair street lot.

Mrs. Margaret Schlosser has purchased from Mr. Sam Watson and wife a house and lot in Thorn Hill for \$1,600.

Miss Ruby Macklin is building a brick and frame cottage on Arlington Heights, East Main street. Mr. R. A. Brawner contractor.

Owing to the large number of buildings being erected in this city, it is almost impossible to obtain the services of a mechanic for small jobs.

### NEW ROAD SUPERINTENDENTS.

The following new road superintendents were appointed this week: Price Mitchell, road No. 86, leading from bridge near O'Bannon Sudduth's to the Paricella Quire place.

John Bradley, road No. 65, from Bridgeport and Benson pike, near James Riddell's, to Big Benson at railroad.

William Heaton, road No. 83, from Lawrenceburg pike to Cardwell's ferry.

### COUNTY COURT DAY.

Monday last was county court day. Notwithstanding the inclement weather of the morning there was a large crowd in the city.

Quite a number of cows and calves, horses, mules, and sheep were sold, though the prices realized on every thing except horses was rather low.

There is a steady demand for good saddle and buggy horses at very remunerative prices.

Those having good horses can always find a market for them in this city.

### MONDAY'S BLAZE.

At 8:10 on Monday afternoon, an alarm from box 17 called the department to the residence of Mr. J. K. Knight, on the corner of Fourth Avenue and Conway streets, where a spark from a defective flue caused damage to the roof of the kitchen to the extent of \$15 or \$20. Prompt assistance from neighbors prevented a more serious damage.

## Deadly

Grasp of Grip Prostrated Me.

Dr. Miles' Nervine Built Up My

Shattered Nerves and Gave Me an Appetite.

Of the millions of people, who today suffer from nervous or heart weakness, a large percentage trace the cause directly to deadly LaGrippe. It is a germ disease, and makes a direct attack upon the nerves, putting an extra strain upon them at the time their vitality is at the lowest ebb. If LaGrippe has left you with a shattered nervous system, with loss of appetite, lack of energy, insomnia, frequent headaches and morbid tendencies, you should strengthen the weakened nerves with Dr. Miles' Nervine. It will undo all that grip has done, bring back appetite, rest and restore the nerves to their normal activity.

"I want to write this testimonial for the benefit of those who have suffered from that dreaded disease—LaGrippe. I suffered several weeks with it, and nothing I tried seemed to benefit me in any way, shape or form (I suffered almost death), and finally my daughter recommended Dr. Miles' Nervine to me and I can truthfully say from the first day I felt better than in weeks. It gave me relief, built up my shattered nerves and gave me a splendid appetite. I cannot speak too highly of it and want to say, each and every one who has suffered from LaGrippe and find instant relief by getting a bottle of Dr. Miles' Nervine. Insist on having it and take no other. It is simply astounding. Hoping this will benefit some poor sufferer I remain—

### A NEW PLAN BY WHICH THE BURLEY DISTRICT CAN CONTROL PRICES.

The farmers of Owen county have hit upon the only sensible, feasible plan to control the price of burley tobacco. That plan is the outrighting out of the 1906 crop. At first blush this may seem to some a suicidal policy, but a simple calculation will prove its wisdom. If no burley tobacco is grown in 1906, the 1905 crop will bring as much as both. There is every prospect that the present crop will excel in quality and quantity any previous yield in the last decade. The moment it is saved and preparations are begun for the 1906 crop, the tobacco trust will lay out its plan of campaign and sit back in its den to gloat over the millions of fools who are willing to contribute to its already overflowing coffers. It is time for the farmers to quit working for the tobacco trust.

As long as the market is supplied with an abundance of the weed, so long will the farmers continue at the mercy of the hungry octopuses. Its greed has known no bounds. It has grown to such mighty proportions that every branch of our commercial life flows into its insatiable and greedy stomach. This was shown by the failure of the Growers' Association in 1904. The very money that was promised by Eastern capitalists to finance the deal was Trust money. They promised just enough to keep the farmers in a state of expectancy. The plan was to make them pitch a big crop for 1905. Then came a hitch in the negotiations. New conditions were imposed as fast as past agreements were fulfilled and finally came failure. Every farmer knows the consequence of that failure and feels its effects. The price of tobacco took a sudden leap downward. Confidence passed from the grower and sat, demon-like, upon the head of the trust. It was a discouraging, hopeless, situation for the producer. Pending negotiations, farmers everywhere held their tobacco at a handsome price. When the failure came they fell over each other in their scramble to sell at any price. The Continental Tobacco Company never planned a more successful and diabolical coup.

The present plan of the Growers' Association is deemed impracticable. If not wholly impossible. In the first place it involves an expenditure of \$1,000,000 by the farmers for capital stock. "Eastern capitalists" are to furnish the rest. This plan can never enlist the confidence of the people, and without this, failure will attend its every step. Owen County farmers have determined, and wisely so, to pull out of the old organization. The plan they suggest is one that involves no expense. No appeal has to be made to "Eastern capitalists." Their dealings are all with themselves and among themselves

and no traitors are to be allowed in the camp. If the plan is adopted success is bound to attend it. Failure could not possibly come. A certain amount of tobacco must be had and had at any price. Farmers could demand that price and the manufacturers would be forced to give it. The plan furnishes a great opportunity to farmers. Their farms could be rested and improved for one year, their attention turned to grass, grain and stock raising and their bodies rested from the slavery, wearing strain that a tobacco crop always occasions. The question is: "Will the farmers do it?" If seventy-five per cent. of them say they will, and stick to it, "the world and the fullness thereof" is theirs. It costs them nothing to try. The plan is feasible. It is practicable, inexpensive and certain. Cotton growers in the South have tried it and it proves a success. Why not you?—Owensboro News-Herald.

### IN MEMORIAM.

Mrs. Martha Rodgers passed quietly away last Saturday morning at 4:15 at the home of her daughter, Mrs. W. J. Scottow, after an illness of four months. She was 78 years of age, being the oldest member of the Indian Fork Baptist Church, in Shelby county, having united with that church in early childhood. She was a faithful consistent Christian. She leaves two sisters and a brother, her husband having preceded her to the grave a few years ago, and two daughters, Mrs. W. J. Scottow and Miss Alice Rodgers. Truly a good woman has gone to her reward. "She resteth from her labors, and her works do follow her."

The funeral services took place at the Indian Fork Church last Sunday morning and she was laid to rest to await the resurrection morn.

We have been placed under obligations to Mr. Henry Wright, of Farmdale, for a nice home-grown watermelon. It was very nice and sweet. He will please accept our thanks for his kindly courtesy. State College of Kentucky

Lexington, Kentucky.

The Agricultural and Mechanical (State College) of Kentucky offers the following courses of study, viz: Agricultural, Horticultural, Chemical, Biological, Mathematical, Physical, Normal School, Classical, Mechanical Engineering, Electrical Engineering, Civil Engineering, and Mining Engineering, each of which extends over four years and leads to a degree. Post graduate studies are also provided, leading to a master's degree. Each course of study is organized under a separate faculty. The general faculty number nearly fifty professors and instructors.

County appointees receive tuition, room rent in dormitories, fuel and light, and if they remain ten months, traveling expenses. The laboratories and museums are large, well equipped, comprehensive and modern.

The Legislature appropriated \$60,000 for a college home for young women and \$30,000 for drill hall and gymnasium for men. Both buildings are completed and in use. Military tactics and science are fully provided for as required by Congress.

Graduates from the several courses of study readily find excellent positions and liberal remuneration. The demand is largely in excess of the ability of the College to supply.

Specialists with the necessary number of assistants have charge of each department of natural science. Summer schools are provided for pedagogy, engineering, instruction in science and in arts.

The State College of Kentucky, though bearing hitherto the title of "college," is the only institution in the Commonwealth doing, in any proper sense, university work.

The completion of the College home for young women provides facilities for good board and lodging. It is equipped with all modern conveniences, including bath rooms and room for physical culture. It is heated by steam and lighted by electricity.

An opportunity is thus afforded to young women of obtaining a thorough education in classic, modern languages, literature, science, mathematics, logic, metaphysics, history, and political economy.

No other institution in the State offers advantages for education of women at all comparable to those offered by the State College of Kentucky.

When one gets Ballard's Obelisk, Miles' M. K. Wheat once wet can never be dried to make first-class flour. It will pay those wanting good flour to ask their grocers for the above brands. ### HOME ENDORSEMENT.

Hundreds of Frankfort Citizens Can Tell You All About It.

Home endorsement, the public expression of Frankfort people, should be evidence beyond dispute for every Frankfort reader. Surely the experience of friends and neighbors, cheerfully given by them, will carry more weight than the utterances of strangers residing in faraway places. Read the following:

Mrs. Anna M. Kavanianch, residing at 504 corner Main and Todd Sts., says: "I received no permanent benefit from all the different medicines I took for a number of years past trying to find relief for intense suffering I endured across the small of my back, seemingly centered in my kidneys. I became, in fact, about tired and discouraged in my efforts to cure myself. At one time my condition was so bad from congestion of the kidneys that my doctors gave me up, however, I got better, but continued to suffer with the dreadful misery in my back and an annoyance and distressing weakness of the kidneys. I read the splendid testimonials about Doan's Kidney Pills in our papers and this induced me to make one more effort. My grandson procured a box for me at J. W. Gayle's drug store, and to my most pleasant surprise they gave me immediate relief, and by continuing the treatment I found myself remarkably improved."

### "DO IT TO-DAY."

The time-worn injunction, "Never put off 'till to-morrow what you can do to-day," is now generally presented in this form: "Do it to-day!" That is the terse advice we want to give you about that backing cough or demoralizing cold with which you have been struggling for several days, perhaps weeks. Take some reliable remedy for it to-day—and let that remedy be Dr. Boecher's German Syrup, which has been in use for over thirty-five years. A few doses of it will undoubtedly relieve your cough or cold, and its continued use for a few days will cure you completely. No matter how deep-seated your cough, even if dread consumption has attacked your lungs, German Syrup will surely effect a cure—as it has done before in thousands of apparently hopeless cases of lung trouble. New trial bottles, 25c; regular size, 75c. At all drugstores.

## Feet Made Easy

If everyone went barefoot there would be no need of a remedy for tired, aching, swollen and blistered feet; but as the usage of society makes the wearing of shoes a necessity the next best thing is to use a preparation that will keep your feet cool, healthy and comfortable during hot weather.

Such a preparation is

Gayle's Antiseptic

Cannot possibly harm, must do good or we return your money. Price 15c.

### FRAUD EXPOSED.

A few counterfeiters have lately been making and trying to sell imitations of Dr. King's New Discovery for Consumption, Coughs and Colds, and other medicines, thereby defrauding the public. This is to warn you to beware of such people, who seek to profit through stealing the reputation of remedies which have been successfully curing disease for over 35 years. A sure protection, to you, is our name on the wrapper. Look for it, on all Dr. King's, or Bucklen's remedies as all others are mere imitations. H. E. If you eat a little too much, or if you are subject to attacks of indigestion, you have no doubt had shortness of breath, rapid heart beats, heartburn or palpitation of the heart. Indigestion causes the stomach to expand—swell, and puff up against the heart. This crowds the heart and interferes with its action, and in the course of time the heart becomes diseased.
